Hi how are you, it's jeannie here and on you question about how long the produce retain their taste? When I cook with Kangen water any vegetable, meat or grains and pastas it tastes so much better and stays fresh tasting much much longer than cooking the same ingredients with tap water. I use the beauty and acid waters for rinsing the ingredients before cooking. I also use the two waters for disinfecting and sanitizing my home and hands during the C-19 period. Let me know if I answered your question. Thank you.
